

Parents we welcome you to use our app **Procare Connect** to stay in touch with your child's teacher. Teachers will be using this application to privately and individually contact you with messages, photos and videos to share your child's progress and other concerns or comments they might have. Sometimes pictures as a group doing an activity may be taken and posted in the classrooms daily activity that will be available to see for all the parents of the classroom. You may also reach out directly to the teachers through the app with any questions. If you have any personal concerns about this application please feel free to contact us at the front office and we will gladly help you out.

Child's Name: _____

Parent Signature: _____

Date: _____
